

**Introduces Livelihood Program Based  
Micro-Economic Centre for  
Empowering Rural Women**

---

Proposed by  
Sustiknow Advisory Private Limited

# Objectives

The Livelihood Program-Based on Micro Economic Centre (MEC) aims to empower rural women by creating sustainable livelihood opportunities. The center will be owned and managed by women, providing flexible, seasonal employment through activities like stitching, butter production, and cold-pressed oil manufacturing.

The model focuses on gradual expansion, ensuring 100% employment for village women and attracting developmental funds. ScholarLab will serve as the technical and implementing partner for this transformative initiative.

**1**

## Women Empowerment

Through village-owned, solar-powered economic centers

**2**

## Sustainable Livelihoods

Create replicable & scalable models with govt. initiatives (SRLM)

**3**

## Promote Clean Energy

Utilize solar power for sustainable operations

**4**

## Economic Resilience

leveraging seasonal and variable economic activities

**5**

## Strengthen Communities

Mobilize SHGs for collective economic growth

---

# Background

India's rural and border areas are abundant in natural resources, skilled labor, and agricultural produce where rural women face poverty due to limited resources, job opportunities, and unreliable electricity. Establishing solar-powered Micro Economic Centers (MECs) will empower women with skills, enable entrepreneurship, and improve incomes. This initiative promotes gender equality, sustainable livelihoods, and economic growth while reducing reliance on fossil fuels.

## Deliverable 1

**Establishment of MECs:** Create pilot economic centers powered by solar energy with capabilities for cold-pressed oil production, stitching, butter production, and welding.

## Deliverable 2

**Skill Development:** Provide training for rural women in technical and entrepreneurial skills to manage and operate the centers effectively.

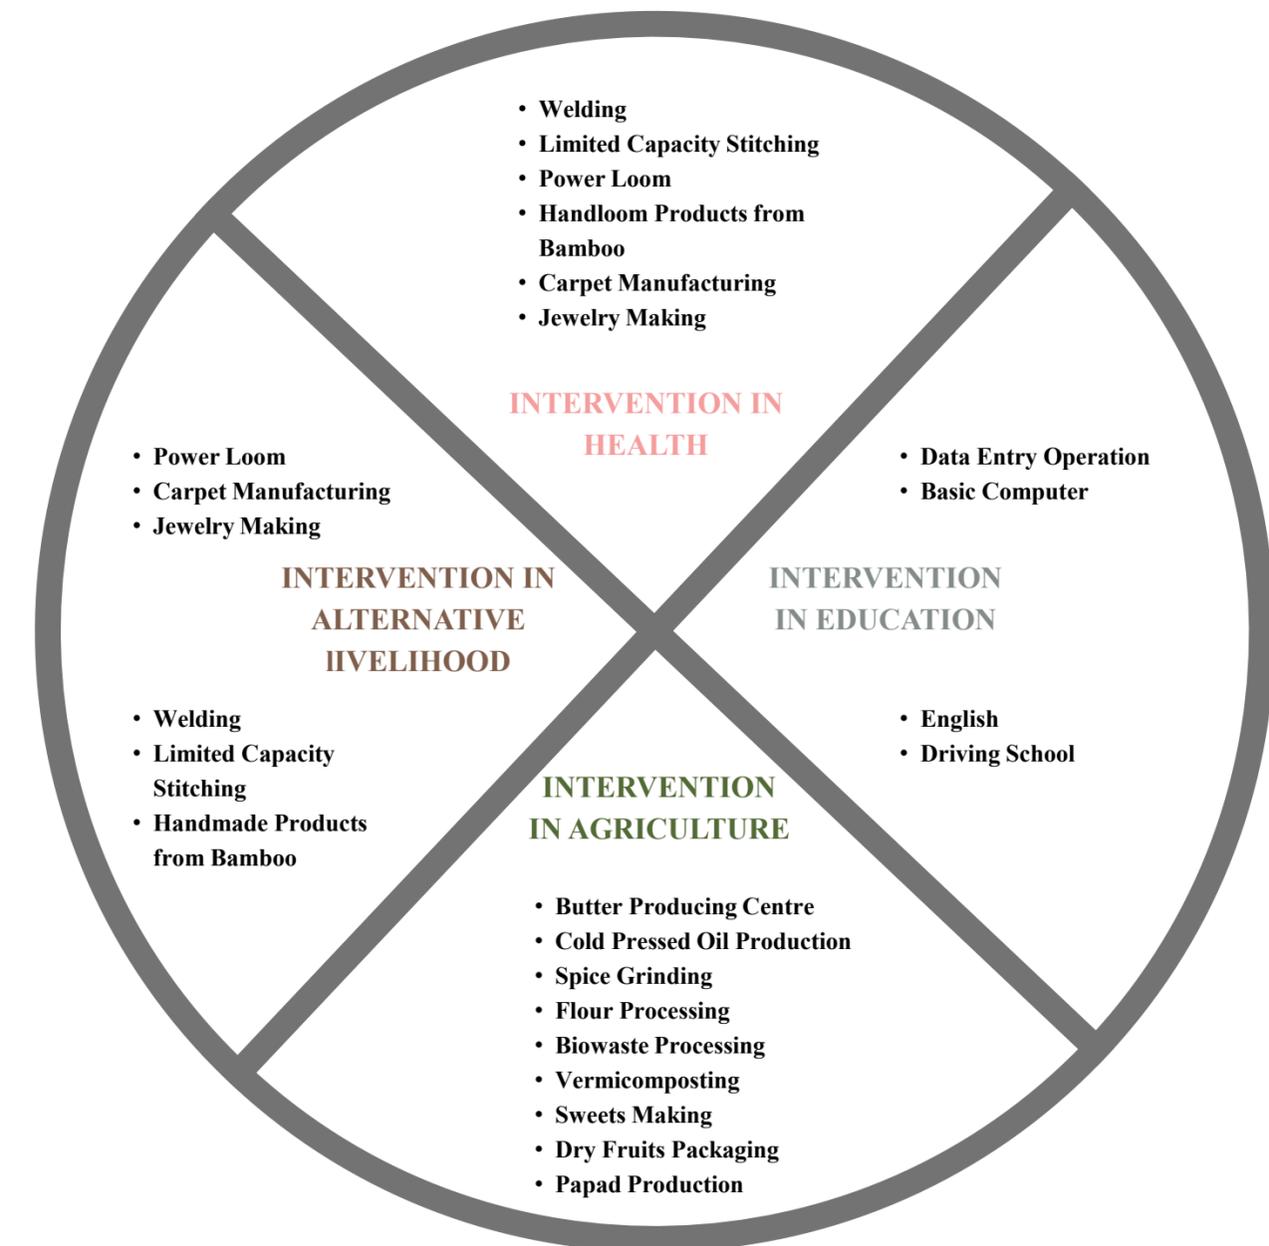

## Deliverable 3

**Renewable Energy Integration:** Solar-powered solutions for economic activities, reducing reliance on fossil fuel.

## Deliverable 4

**Economic Empowerment:** Achieve 100% employment for women in target villages within five years by offering seasonal and sustainable livelihood options.

# Opportunities

## Deliverable 5

**Monitoring and Evaluation Tools:** Real-time remote monitoring dashboard for energy consumption, business productivity, and finances.

## Deliverable 6

**Scalability and Replication:** Develop a roadmap for scaling the MEC model to other villages and integrating it with national rural livelihood programs.

## Deliverable 7

**Community Ownership:** Ensure the centers are entirely owned and managed by village women, fostering local leadership and decision-making.

# Proposed Budget

Items	Quantity	Price including (18%) GST
<b>Oil Pressing @ 1.5 HP @ 100 Liter Per day</b>	1	₹ 1,77,000
<b>Welding Machine and Equipment</b>	1	₹ 1,77,000
<b>Butter Producing Centre</b>	1	₹ 1,77,000
<b>Stitching</b>	10	₹ 2,95,000
<b>Micro Economic Centre (7m * 2m) with Two laptops and Furniture</b>	1	₹ 24,19,000
<b>Management and Logistic</b>	1	₹ 5,90,000
<b>Solar Plant Development</b>	1	₹ 18,88,000
<b>Dashboard Development</b>	1	₹ 4,72,000
<b>Administration Cost</b>	1	₹ 6,58,833
<b>TOTAL</b>		<b>₹ 68,53,833</b>
